Statement from the President - RC29 Paul Dekker

Dear Members,

It is quite a long time since we sent you the last IPSA RC 29 Newsletter. It was my duty as a vice-chair to do that in cooperation with our former chair, Linda Shepherd. As you know, Linda has been ill for a long time and, although recovering, this spring she decided to step down as chair of our RC. I got a very positive response to my request for candidates for an interim board, which should function till new elections at the membership meeting at the Madrid IPSA World Congress in Madrid in 2012. I thank them for their readiness to serve as board member and thank all for accepting the board of ten members that I later proposed. All members who replied accepted the proposal, but there was one critical comment on the very unbalanced gender relationship: 1 female, 9 male. The board then decided to ask two more members (the maximum is 12 board members) to make this a little bit better. I am grateful to Tereza Capelos and Miao Hongna that they have accepted our request to complete the board. They and the other members of the board are introduced to you further on in this newsletter, as is some news from other members.

Also in this newsletter you will find information about the membership fees and about the new journal *Politics, Culture, and Socialization*. This journal was initiated by RC 21 Political Socialization, in cooperation with our RC. Our board member Dan German is one of the editors and various other members of RC 29 are on the editorial board. We should consider this journal as our own and I strongly recommend subscription as well as the submission of articles. However, after some discussion in the board, we have decided not to make the journal subscription obligatory or a default part of the membership of RC 29. That might have been for various reasons too much for some members and discourage potential members, but of course we hope you will go for the combined membership/journal option.

I am very happy that Bill Bostock, our new secretary, has taken the initiative to revive the newsletter. Please send him (bostock@utas.edu.au) any news that might be of interest to others: new publications, conferences and other meetings, change of jobs, opportunities for students, etc. etc. No newsletter can exist without news and I'm afraid there will be only news if you make / deliver it.

Besides news, we might have some exchange of views & discussion in the newsletters. What would interest me particularly is your opinion about the name of our RC: Psycho-politics. On the one hand it might sound broader and better suited for a political science association than 'political psychology', but on the other hand, 'psycho-politics' can be associated with its use in Stalinist Russia. To quote from a translation of Beria to American students at the Lenin University in 1936:

"I welcome your attendance at these classes on Psychopolitics. Psychopolitics is an important if less known division of Geopolitics. It is less known because it must necessarily deal with highly educated personnel, the very top strata of "mental healing." By psychopolitics our chief goals are effectively carried forward.

To produce a maximum of chaos in the culture of the enemy is our first most important step. Our fruits are grown in chaos, distrust, economic depression, and scientific turmoil. At last a weary populace can seek peace only in our offered Communist State, at last only communism can resolve the problems of the masses.

... .. By psychopolitics create chaos. Leave a nation leaderless. Kill our enemies. And bring to Earth, through communism, the greatest peace Man has ever known. Thank-you."

(see: <http://www.scribd.com/doc/11944467/Marxist-Papers-Speech-of-Beria-for-US-Students-on-Subversion-and-Psycho-Politics>)

Any thoughts about the use of political psychology and psychopolitics? Please send your view to Bill for the next newsletter.

Besides the revival of the newsletter, we aim to revive the website. Miao Hongna has been so good to offer to be the webmaster for time to come. Please send Hongna (politicscumt@yahoo.com.cn) or Bill or me any material for the website: papers, information about publications etc. Some of it can be in the Newsletter and the newsletters will be available on the website, longer texts can be made available on the website directly. From the publication of this Newsletter onwards, our website will be hosted no longer by my office in the Netherlands, but by IPSA. The new address is: www.rc29.ipsa.org.

Thanks for your patience over the last few years, and please contribute to the reactivation of our group, and the suitability of its title, by sending information and ideas, and also start thinking about what we could do at the Madrid Congress.

Paul (p.dekker@scp.nl)
